Thank you for your commitment and partnership in expanding health services to those who need it most!

2016 was an unforgettable year with the opening of two new sites: our health center in Hyattsville, MD – which now provides medical, mental health and enabling services to nearly 1,000 patients; and La Casa in Mount Pleasant, DC – our community wellness center and home to our gender and reproductive health, health equity, and interpreter services programs, in addition to hosting health promotion and cultural activities. As the need for familiar and safe spaces, and culturally and linguistically proficient care rises, La Clínica finds itself reaching deeper and wider to maintain its core services and expand to meet the critical health needs of the Latino immigrant community.

We are grateful for the generous and significant support of each of you – partners, change makers, allies, volunteers, donors – who are helping to advance our vision and live in our mission.

Adelante!

Building a healthy community through **YOUR SUPPORT**
